

Championships For All

Exploring a new NABC format

Following the summer 2025 meetings in Philadelphia, this update details the Championships for All initiative. This strategic restructuring of the NABC business model aims to improve operational efficiency, bolster financial sustainability, and elevate the tournament experience for players of all skill levels.

This includes consolidating events, streamlining schedules, and right-sizing venues to optimize staffing and volunteer time. Also, implementing pre-registration and tiered pricing to align fees with participation and facility costs.

The fall 2028 NABC in Austin will serve as the pilot for this streamlined model. Its success will be evaluated using participation trends, budget outcomes, and Member feedback to maintain an adaptable and inclusive approach.
