VISIT PRESQUE ISLE

Take an opportunity to visit beautiful Presque Isle and see the lighthouses on the bay. The Presque Isle Lighthouse construction was begun in Sept. 1872 and began operation on July 12, 1873. This lighthouse replaced the first great lakes lighthouse on the Erie shoreline built in 1818. The new Presque Isle Lighthouse was referred to as the "flash light," by the local residents. Charles Waldo was its first keeper. He and his wife Mary gave birth to the first baby born on the isle.
