"Open Pair/Team" Explained

In the Pair/Team game all players have **2 ways to win!** The pair portion of the event runs as a regular match point game. In the team portion, the players starting at your table will be your teammates. **Pairings for the team portion will be made by the computer.** The game starts after your teammates move to the next table; you never play against them. **Players receive the higher number of points they earn, either as a pair or as a team.** For example, if in the pair portion a pair earns 1.12 MPs but in the team game they achieve 4.5 MPs, they get the 4.5 --all silver, all for the price of one event!

Unit 154 Annual Meeting will start at 9:15 AM on Sunday
