Click the button for "Third-party Sharing".

The screenshot shows the ACBL Live for Clubs manager interface. At the top, there is a navigation bar with the ACBL logo, 'LIVE FOR CLUBS BETA', and menu items for 'Upload', 'Manage', and 'My Results'. Below the navigation bar, the main heading is 'Manage Live for Clubs Results'. Underneath, there is a dropdown menu for 'Managing Club:'. Below that, there are three buttons: 'Club Options -', 'Notification Preferences', and 'Third-party Sharing', which is highlighted with a red arrow. To the right of these buttons is a link for 'Resources for making a logo'. Below the buttons, there is a 'Show 10 entries' dropdown and a search box. A table with columns 'Date', 'Name', 'Session #', 'Class', 'Tables', 'Status', and 'Updated' is shown, but it is empty with the message 'No data available in table'. At the bottom, there is a 'Showing 0 to 0 of 0 entries' indicator, 'Previous' and 'Next' navigation links, and an 'Upload a Game' button.

Check the box next to each website with which you would like to share game results.

The screenshot shows a modal dialog box titled 'Live for Clubs Third-party Sharing'. The dialog contains the text 'I authorize ACBL to automatically send my game results to the following third-parties:'. Below this text, there are two checkboxes: 'The Common Game' and 'Power Ratings', both of which are checked. At the bottom of the dialog, there are two buttons: 'Continue' and 'Close'.

Click the "Continue" button.
