

Dear Youth Bridge Instructor:

Enclosed you will find information on running an end of class tournament or Pupil Game. The students will have the opportunity to put into practice what they have learned. Running a pupil game will give the winners a chance to earn their first ACBL masterpoints. Please note that applications for pupil games must be submitted 30 days prior to the game.

The tournament can be run as an individual or a pair event. The four trophies you received are to be awarded to the winners.

In this packet, you will find:

- 1. Instructions for Running the Tournament**
- 2. Application for ACBL Pupil Game**
- 3. Pupil Game Masterpoint Submission Form**
- 4. Pupil Game Masterpoint Awards**
- 5. Instructions for Matchpointing – “Learning to Matchpoint”**
- 6. Traveler Score Sheet**
- 7. Pupil Game Final Results & Masterpoint Sheet**
- 8. Table Instructions Guide Cards for an Individual / Pair Event**

If you have any additional questions, or need assistance, please contact the Tournament Department at 662-253-3165.

Instructions for Running the End of Class Tournament or Pupil Game

1. Assign individuals or pairs a number.
2. Students are to play a minimum of six hands, the same hands, no shuffling. If running an individual game, players will change partners after every round. If running a pairs game, partners will move tables after every round.
3. Provide a traveling card showing which tables to move to.
4. Mark each table with a number and the seat directions for North, East, South and West, clockwise.
5. The same hands should move from table to table. Duplicate clubs use boards to assist with this process. In lieu of boards, envelopes can be used and labeled with the hand #, and marked North, East, South or West. Label the Dealer for each hand, which should be rotated for each direction for as many hands as possible, rotate clockwise.
6. North will score the hands using the simple traveler scorecard and will not open the scorecard until end of play. For quicker scoring, do not use vulnerability in the game.
7. Post the movement of pairs and hands in a central location for students' reference.

Note: Two volunteers may participate to avoid half tables. The volunteers are an ineligible pair for masterpoints, but keep the movement and game going smoothly.

Application for ACBL Pupil Game

A School Bridge Program teacher may run a free Pupil Game and award ACBL masterpoints. The teacher must be an ACBL member, and follow the Pupil Game guidelines. The application must be submitted at least 30 days prior to the Pupil Game.

Complete the application below and send to:

American Contract Bridge League
Attn: Pupil Game Sanction
6575 Windchase Blvd
Horn Lake, MS 38637

Teacher Name: _____

Teacher ACBL #: _____

Teacher Email: _____

School Name: _____

School Address: _____

School City/State (Prov) /Zip: _____ , _____

School Phone Number: _____

Send Mail to (circle): Teacher School

This application for ACBL Masterpoint Game Sanction will not be accepted unless you sign as indicated, agreeing to the following provision:

Should any dispute, of whatever kind or nature, arise between the ACBL and the undersigned teacher, it is agreed that such dispute shall be resolved by binding arbitration pursuant to the rules of the American Arbitration Association or such other method of binding arbitration as may be agreed upon mutually by the parties.

I hereby agree to observe the rules and regulations of ACBL masterpoint games held at clubs, including the arbitration provision.

Matchpointing

Learning to Matchpoint

Knowing how to matchpoint quickly is a lot less important in this computer age than it was in the past. Matchpointing is not included on the Club Director Test. But a club director still needs to know the basics, to be able to explain how scoring works to the customers or to actually score the game if the computer is down.

Matchpointing

For every pair you beat, you get one matchpoint.

For every pair you tie, you get one half of a matchpoint.

For every pair that beats you, you get nothing.

If a pair has average it has tied with all the other pairs.

You tie with every pair you can not compare with.

If a board is fouled, you cannot compare with the pairs that played the board in different conditions than you did.

Top and bottom

The travellers in this section show which players did better with their cards than the others. We want to reward the pairs appropriately. We will give out marks, called matchpoints, just like a teacher does in school after a test. You give one matchpoint to a pair for every pair they beat, and $\frac{1}{2}$ matchpoint for every pair they tie. The worst matchpoint score on a board ("bottom") will be zero; the best ("top") will be one less than the number of times the board is played. The top will vary from game to game depending on the movement. Bottom never changes.

Examples

Suppose we had a seven-table Mitchell, playing all seven rounds. The boards are played seven times; bottom is 0 and top is 6.

What about a nine table game, playing nine rounds?

Bottom is _____. Top is _____. Average is _____.

Average is halfway between top and bottom.

Your answers should have been 0, 8 and 4, in that order.

What about a 12-table relay and bye-stand game?

How many times are the boards played? _____

Bottom is _____. Top is _____. Average is _____. (12, 0, 11, $5\frac{1}{2}$)

In an 11-table game, playing 27 boards with three boards per table, what was top on a board? _____

You needed to work out that they played nine rounds, so the boards were played nine times. (Three boards on a table, 27 boards is nine rounds.) So top was 8.

Let's Matchpoint

In a seven-table Mitchell, all of the tables played the board. When matchpointing, start from the bottom, giving out your zero first. Bottom never changes.

We awarded the following numbers of matchpoints to the N-S pairs: 0, 1, 2, 3, 4, 5 and 6. They got one MP for each pair they beat. We awarded the bottom of 0 MPs to the N-S pair who didn't beat anybody.

Who was it? _____.

Right, #2. Give that pair a ZERO.

Who was next worst? _____.

Sure. Give 1MP to the pair who beat only #2, and that's pair # 7.

Note: We took into account how big a minus the N-S pair had earned. It's better to be only minus 50 than to be minus 100. So the ones who have the least minus get more matchpoints.

We gave 3 MPs to the pair who beat #2 and #7, 4 matchpoints to the next best, 5 to the second highest, and 6 matchpoints to the pair that beat all six other pairs. So, in order, the N-S pairs got 5, 0, 3, 6, 2, 4 and 1 MPs.

ACBL SHORT TRAVELING SCORE

(Mitchell or Howell)

North player keeps score.
Enter E-W Pair No.

E-W reciprocation*

How do we matchpoint E-W?

Do you see that where the N-S pair did the best, the E-W pair that played against them did the worst? And where N-S got a bottom, E-W got a top?

Instead of actually starting from 0 all over again and matchpointing the E-W pairs, we can just give E-W the reciprocal of what their opponents earned. (When N-S gets a 6, that E-W gets a 0. When N-S gets a 2, that E-W gets a 4. When N-S gets a 3, that E-W gets a 3, etc.) So, in order, the E-W pairs got 6, 2, 3, 5, 0, 1 and 4 MPs.

*In matchpointing, the reciprocal is defined as the difference between the matchpoints received by the N-S pair and top.

Checking Your Matchpointing

Check total on a board

If we separately add up all of the matchpoints on a board for each direction, we will get the “check total” for that board. Each of the boards in any one game will have the same check total.

Look at some check totals. In the seven-table game discussed earlier, we awarded scores of 0, 1, 2, 3, 4, 5 and 6. The sum of these digits is 21. In the 13-table game, where top was 12, we get a check total of 78. When you have players “helping” you at the end of the game, you need them to add up the check totals on the boards they matchpoint before giving them to you to post on the recap sheet. That way, you will have some protection against a big source of errors.

Is there an easy way for you, the director, to calculate the check total on a board? Sure. Simply multiply the average on a board times the number of times it was played.

Think of it this way. In our seven-table game, if all seven pairs had done the same thing on a board, they would each get an average (a “flat” board). Each pair beat no one, but tied 6 pairs, so they got 3 MPs. On a board with a top of 6, average is 3. If all seven pairs got 3, then $7 \times 3 = 21$, the check total for the board. Amazing!

Recap total

It is important to know not only that our matchpointing of each board is accurate, but that our addition was accurate as well. We can check this by adding up all of the pairs’ scores and getting a “recap total.” We then compare the number we get against the number the recap total *should* be.

What should the recap total be? Easy. Take our seven-table game again. If average on a board is 3 and each pair played 28 boards, Average for one pair would be $3 \times 28 = 84$. Since there were seven N-S pairs, the total for all the N-Ss is $7 \times 84 = 588$.

There is another way to get a recap total. Every traveller has a check total. Multiply that number by the number of boards in the game. In our seven-table game, the board check total was 21. There were 28 boards in the game. $21 \times 28 = 588$. Magic!

Check total on a board = Average on the board X the number of times it was played

Recap total =
game average X # pairs in that direction, or
Recap total =
board check total X # boards in play

Matchpointing the Howell

When matchpointing a Howell, you just matchpoint the pairs that played N-S on the board, then reciprocate for the pairs that played E-W. Write all of the numbers in the top part of the traveller on the appropriate lines, so they’ll be easy to transfer to the recap sheet.

Your check total for a board in a Howell is TWICE the average on the board X the number of times it was played. This is because the total includes the matchpoints for the E-W pairs as well as the N-S pairs, and so it will be twice as large as it would be in a Mitchell.

Your recap total for a Howell is the number of pairs in the game X the average for the game.
